Identity Evropa Member Glenn M. Dawson

This article is republished, with permission, from Colorado Springs Anti-Fascists.

At this point, doxxing the smarmy assholes behind the Identity Evropa group photos has become something of a routine. The grinding regularity of it takes all the excitement out of it, and it seems like everyone is doxxing Identity

Evropa now. Just this week Atlanta comrades outted their national director of activism and "sexual batterer" Justin Peek, and police identified Identity Evropa member Christopher Hodgman behind posts at the University of Rochester. Anyway, this month's dox of a Colorado member of white supremacist group Identity Evropa is...

Glenn Martin Dawson of Ft. Collins, Colorado! You can read his discord chat logs here.

Like Kohl and Stevens, Dawson was part of the Identity Evropa nature hike at El Dorado Canyon state park, and the subsequent demonstration at Civic

Center Park in Denver back in November.

We're really filling in this group photo! You can see Dawson's distinctive fivehead just peeking out above the woman holding the right side of the Identity Evropa flag. You can find freshly-doxxed Justin Peek to the left in front of Liam Stevens.

Here you can see Dawson just to the right of Casey, in front of "Cory."

Hi Glenn.

Glenn is recently separated from the US Air Force. The IE discord chats show that he started doing "activism" (being a weirdo in a public library) while still on active duty. It sure would suck to be outted as a white supremacist while still on active duty. I mean maybe, it seems like the military still isn't taking these guys seriously, although maybe the recent case of Coast Guard lieutenant Christopher Paul Hasson will make them pay more attention. Even if the cases of Pistolis or those Atomwaffen National Guardsmen who were building bombs in Florida didn't.

Dawson has this cute little Air Force tattoo on what looks like his Right Forearm.

He currently lists his employment at Transpro Burgener, a trucking company in Ft. Collins.

His social media accounts are, again, about what you'd expect. He's a big fan of Richard Spencer on his twitter account.

This is terrible content—you're trying to make white people look weak, aren't you?

Following Generation Identity, the group whose template Nathan D'Amigo stole when he formed Identity Evropa. Also a lot of Mormon shit, again the connection between Nazis and conservative religious groups.

When I see someone who's my superior, I feel happy for them.

Those who are my superior give me pride in my people. They give me new goals to reach, new standards to set.

People who are my superior are my motivation, my inspiration. I never resent them for being better than me.

Holy shit look at his first "liked" tweet from "Racial Consciousness," a totally normal name for a totally normal account making totally normal tweets. This is some serious post-grad level bootlicking. These dudes eroticize fascism and hierarchies. "They're aroused by their unconscious desire to submit to strength." Very "well adjusted." Instead of paying dues to Identity Evropa and getting doxxed, just go find a fucking dom. Damn.

He has close ties to the Larimer County Republican Party.

Glenn M. Dawson endorsed Sean For Larimer County Commissioner.

For all of those that will be voting in the upcoming election; I couldn't agree more with Vans endorsement of Mr. Dougherty. Having know Sean Dougherty for more then a decade, I can attest to the fact that he is the most qualified candidate. His experience is unparalleled.

He seems to be a close personal friend of former Larimer County Commissioner Sean Dougherty on his Facebook page.

Identity Evropa members with ties to the mainstream Republican party should always be a cause for concern. Patrick Casey, the Identity Evropa national director, has himself stated that one of the goals of Identity Evropa is "To take over the GOP as much as possible." And let's be honest, Republicans in Colorado are racist as fuck. It's not like Identity Evropa would have that much work to do to make themselves palatable to the Colorado GOP. However, Dawson was RTing Richard Spencer back in 2017 (which would coincide with his active duty period as well) and then makes his endorsement of Dougherty in 2018, making claims of "having know[sic] Sean Dougherty for more than a decade." Did Dougherty know that Dawson was a neo-Nazi? Why is an elected official so chummy with neo-Nazis? Since Dougherty lost his re-election bid these questions might not be as relevant as they would be otherwise.

Not all Trump supporters are Nazis, but all Nazis are Trump supporters.

Identity Evropa is very upfront about their plans and activities. They do their activism in broad daylight (although their dudes in Co Springs might be cheating a bit there...) and they are doing their damndest to drag the Overton Window as far to the right as they can. They're building inroads into the establishment GOP. We ignore them at our own peril.
